

Feb 24 - Mar 2 Progress Summary

Completed

- ☒ Added to abstract: is V&V being replaced by "optimize"?
- ☒ Highlighted work on "surprise" in literature
- ☒ Rename Section 4 to Literature Review: Results
- ☒ Figure 2: Added subclasses of data: real and synthetic
- ☒ Figure 2: Added: simulators generate synthetic data
- ☒ Figure 4-6: Changed font to be less faint
- ☒ Added table of abbreviations used
- ☒ Add more content discussing "adversarial", "novelty", "surprise", and "anomaly" in the abstract and introduction
- ☒ Added a glossary of terms with 1-line definitions
- ☒ Sorted Section 4 paragraphs by 2014-2020 part of importance in Figure 6
- ☒ Section 6: Ordered paragraphs by importance in Figure 6--moved SMO to beginning because it relates to optimization

Needs Info

- ☐ Rank Figure 6 by funding source: how?
- ☐ Section 6: cycle back to previous sections: unsure what you meant

In Progress

- ☐ Read Zhang et al. review paper (<https://arxiv.org/pdf/1906.10742.pdf>)
- ☐ Read about Perturbation Validation

Todo

- ☐ Figure 6: add histograms above ticks

☐ Change some terms to sentences: Sherry
